2022-23 Emerging Leaders Academy

ANSWER THE CALL TO LEADERSHIP

The OBA is searching for the elite Emerging Leaders in Oklahoma - the next nucleus of banking leaders in our state. We're looking for the best and brightest bankers who seek to sharpen their leadership skills. The 2022-2023 Emerging Leaders Academy is designed to help these select individuals reach new heights with powerful speakers offering information leaders need to effectively maneuver in today's business climate.

The Academy includes six one-day sessions centered on developing leadership and management skills by using creative instruction techniques and active participation. Each session focuses on developing necessary management and leadership skills that can be implemented immediately. Academy applicants should be able to demonstrate an increasing level of responsibility, potential for continuing to play a leadership role in Oklahoma banking and a desire to further their careers and grow professionally. Perhaps someone in your bank is a natural leader who could benefit from this experience.

The Oklahoma Bankers Association extends an invitation to any employee of a bank that is a member of the OBA to apply. A panel of bankers will review the applicants and choose those accepted into the Academy (maximum 30 bankers). Participants must attend all sessions to successfully graduate from the program. Academy fee is \$1,325. Each session includes lunch.

For more information, please contact Megan McGuire at (405) 424-5252 or megan@oba.com.

Session I: Nov. 9, 2022

True Colors, Networking & Team Building

Understanding the personality dynamics present in an organization is the first step toward building an adaptive culture. Francis Tuttle Technology Center's Sean Conrad will guide the class through True Colors™, a model for understanding yourself and others based on your personality temperament. Identifying your personality and the personalities of others provides insights into different motivations, actions and communication approaches. This fun and interactive workshop will help begin a journey toward building a more cohesive group dynamic; both personally and professionally.

Jim Friedemann from Francis Tuttle will lead team building activities designed around:

- Respecting diversity in position and backgrounds.
- Working with employees at different levels within the organization.
- Using fun to build camaraderie.

Session II: Dec. 8, 2022

Powerful Presentations & Deep Work: Rules for Focused Success in a Distracted World

Friedemann will coach Powerful Presentations, covering the following:

- Importance of delivery methods.
- Audience analysis and outlines.
- Keeping your audience engaged.
- Answering audience questions.

Coined by author and professor Cal Newport, deep work will make you better at what you do, let you achieve more in less time and provide the sense of true fulfillment that comes from mastering a skill. Anna Irwin will teach the class how to develop and cultivate a deep work practice to get more of the right things done. In short, deep work is like a superpower in our increasingly competitive economy.

Session III: Jan. 27, 2023

Powerful Presentations

Powerful Presentations continued with Jim Friedemann. Participants will present to the group with their presentations recorded and constructive coaching offered.

Session IV: Feb. 22, 2023

Government Relations, Advocacy, Networking & Written Communication: Write much gooder, in order to not be LOL'd at!

Visit elected officials with our government relations team to learn how your political involvement on the state level can impact your industry. Then take part in the OBA Government Relations Council meeting to hear an update from the federal side as well. Networking is an essential skill. Following GRC, Bank of Oklahoma's Jeff Reid will coach you on honing your networking strategy.

The afternoon session will feature Jeremy Cowen, OBA senior vice president/communications, Oklahoma Banker editor and adjunct instructor at OU's Gaylord College of Journalism and Mass Communication. He will give pointers and tips on effective written communication.

Session V: March 24, 2023

Reducing Stress, Burnout & Crucial Conversations

This session will offer a deep-dive into the components of mindful leadership and provide practical strategies to reduce stress and burnout despite the busy and chaotic times. The concepts of experimental mindset will be shared along with discussion on how lifelong learning aids our ability to overcome setbacks. All content is research-based and designed to strengthen participants' individual leadership styles.

An effective communicator and leader does not avoid important discussions at work because of potential unpleasantness. Participants in this training will learn that in order to manage conflict it is essential to learn skills for creating alignment and agreement. They will learn how to foster open dialogue around high-stakes and emotional/risky topics.

Session VI: April 28, 2023

Emotional Intelligence & Industry Experts

Emotional Intelligence has staying power, outliving innumerable leadership and management trends, because it speaks to the core of how we interact with our world, both professionally and personally. You will learn the model of Emotional Intelligence and find out why EI matters so much at work and at home. You'll discover how you can strengthen your Emotional Intelligence to be more effective.

To conclude the Academy, a banker panel will offer insight into advancing your banking career plus the necessary steps for moving the banking industry forward as more competition is introduced to the industry.

Graduation: May 2023

OBA Annual Convention

The official graduation for the 2022-2023 OBA Emerging Leaders Academy will take place at the 2023 OBA Annual Convention. With completion of the Academy, your Convention registration fee is waived.
