

Meet ESG standards in a budget-friendly manner with Simple ESG. Free up your focus for what truly matters—your core business activities.

Only 25% Of ESG Disclosure Really Matters and We Are 100% Experts In That 25%

Streamline your ESG reporting with the Simple ESG platform from Pickering Energy Partners. This industry-focused platform generates tailored reports that deliver powerful insights for you to engage with new finance vehicles, highlight your competitive strengths and benchmark ESG performance against your peers.

Introducing Simple ESG

Simple ESG is a cloud-based software that simplifies ESG reporting for companies ready to ditch the spreadsheets and adopt an easy, streamlined solution that was specifically built for our industry. Do away with complicated reporting processes and version control nightmares by adopting our one-stop historical data repository. With intuitive navigation, Simple ESG enables you to generate comprehensive ESG reports for major frameworks, like SASB and GRI, in less time.

Why Simple ESG

1. Effortlessly aggregate, report and store data:

Say goodbye to version control risks and all those spreadsheets.

2. Streamlined reporting made easy:

Drive your business forward with informed decisions and the ability to engage new ESG finance vehicles.

3. Unleash competitive advantages:

Data-driven evidence empowers you to highlight your competitive advantages and benchmark against peers.

4. Stop wasting resources:

Prevent over-reporting and redundant data sources, while also saving time and money.

5. Embrace multiple frameworks:

Align seamlessly with top ESG frameworks like SASB & GRI and take your sustainability game to the next level.

PEP will train and support your employees throughout the entire process to ensure maximum efficiency of PEP Simple ESG through current and future reporting cycles.
